

Rozgon O.G. Elements of the mechanism of administrative and legal regulation of small privatization in Ukraine.

The scientific approaches to the definition of elements of the mechanism of administrative-legal regulation are highlighted. The main two concepts of the structure of the mechanism of administrative-legal regulation are revealed: without division of its components into groups and with the selection of obligatory and additional elements. Taking into account the peculiarities of small privatization, the elements of the mechanism of its administrative-legal regulation are determined. Thus, the main elements of the mechanism of administrative and legal regulation of small privatization are proposed to include administrative and legal norms, legal facts, privatization bodies, intermediary entities between them and buyers who have state-owned powers of the subjects of administrative and legal regulation and bodies, which controls and supervises the process of small privatization; Administrative-legal relations that arise, are implemented and terminated when applying the norms of administrative law; acts of law enforcement; procedures and legal means of realization of administrative-legal norms; legal sanctions against violators of the law.

Additional elements of the mechanism of administrative and legal regulation of small privatization are defined: principles of administrative-legal regulation; legal consciousness and legal culture; acts of interpretation of the law; acts of law enforcement; protective law enforcement acts. Proposed directions of normative fixing of elements of the mechanism of administrative and legal regulation of small privatization in the Law of Ukraine "On Privatization of State and Communal Property".
