

#### SUMMARY

**Holobutovskiy R. Z. Administrative and legal aspects of professional training for personnel for justice system of Ukraine.** The article deals with reviewing of administrative-legal aspects of professional training for the system of justice of Ukraine. The system of professional training of judges has been explored, its components have been identified and detailed. The normative and legal base of judges' professional training at the National School of Judges of Ukraine is analyzed. The importance of training competent personnel for national judges is achieved, which is achieved by means of: first obtaining a higher legal education, professional activity in the field of law, special training of a candidate for a judge's position, periodic training and refresher training of an active judge at the National School of Judges of Ukraine.

The specificity of the legal status of a judge determines the complexities that arise during the recruitment of candidates for positions of judges, and especially in the management of his activities. It should be noted that the management of the activity of a judge, subject to the constitutional and generally recognized international principles of ensuring the independence of a judge and his obedience to the law and service of law, is possible only through maintaining his professional and moral qualities.

It is determined that one of the main requirements for future judges is the availability of higher legal education. The modern system of education is characterized by the transition to a two-tier system of education, through which prepares graduates of higher education for undergraduate and postgraduate programs.

It is substantiated that an important element of the training of professional staff for the justice system is the previous practical experience of work in a specialty, for a person applying for a position of judge. The specified requirement simultaneously with the age qualification, is intended to promote the involvement of the most experienced candidates in the judges' lava.

The candidate's experience in law in the course of five years is an integral part of the future professional training of the judge.

It is proved that in its procedural content and content special training of candidates for a judge is carried out by the National School of Judges of Ukraine in accordance with the programs and curricula of special training for candidates for the post of judge and candidates for a position of judge who have been employed for at least three years as assistant judge, in accordance with the Procedure for passing special training of candidates for the post of judge, approved by the High Qualifications Commission of Judges of Ukraine on the recommendation of the National School of Judges of Ukraine.
