

SUMMARY

Filipenko N. Ye. Private theory of expert prevention: genesis and current status. This article analyzes the conceptual foundations, views and ideas on understanding the essence of expert prevention. Essence of expert prevention lies in the influence of relevant subjects on crime through the use of specific expertise. That means that subject of forensic examination of each kind and type should be attributed to the study of circumstances on the basis of which scientific, organizational and technical measures of a preventive nature can and should be developed.

The empirical prerequisites for the emergence and development of forensic research have been investigated: accumulation of empirical facts in the theory of forensic science and other sciences, manifestation of integration processes. Formation of theoretical and applied foundations of private theory of expert prevention. The concept and structure of the private theory of expert prevention, its place and role in the theory of forensic science and judicial examination are considered. It is noted that the study of the current state of the theory and practice of private expert theory has allowed to establish that it has a common beginning and justification. Private theory of expert prevention as a system of interconnectedness includes: idea, principles, great empirical material, which is the cornerstone of the theory, general and specific tasks, functions and goals of the theory, etc.

On the basis of the conducted analysis it is proved that the principles of a systematic approach and construction, which provide its structure, connection with the general theory of forensic examination and the general theory of criminology, a combination of theoretical and applied (practical) researches serve as a justification for the creation of a private theory of expert prevention.

It is emphasized that the formation of the theory of expert prevention is the need to create this theory in order to successfully combat crime specific expertise using.

The relation between the concepts of "general forensic theory" and "private theory of expert prevention" has been investigated, since ambiguity of both scientific understanding and practical application is one of the main problems that cannot be overcome in the forensic research of the phenomenon of expert prevention. appropriate conceptual categorical apparatus.
