Publications in the media are a promising source of information in the detection of crimes in the field of physical culture and sports. The article investigated some of the available crime reports on the Internet, which suggest that the results of official sports events will be unlawfully affected.

For the first time, the article proposes to provide for criminal-law measures against legal entities as the responsibility for unlawful influence on the results of official sports competitions.

According to the results of the study, it is established that the subject of the crime under Part 1 and Part 2 of Art. 369-3 of the Criminal Code of Ukraine may be a general actor: a natural convicted person who, at the time of committing the crime, was sixteen years of age, and under Part 3 of Art. 369-3 of the Criminal Code of Ukraine – a special actor, namely: athlete - an individual who systematically engages in a certain type (s) of sport recognized in Ukraine and participates in sports events; Personnel of auxiliary sports personnel - any coach, mentor, manager, agent, team worker, team official, medical and other personnel who serve or treat athletes who participate or prepare for sports competitions; sports official - owner, shareholder, manager or employee of a legal entity that organizes and facilitates sports competitions, as well as persons authorized to hold official sports events, executives and employees of an international sports organization, other competent sports organizations that recognize the competition.

In order to ensure the unity of terminology, it is proposed to exclude the word "directly" from Part 2 of Art. 6 of the Law of Ukraine "On Preventing the Impact of Corruption Offenses on the Results of Official Sports Competitions". In a note to Art. 369-3 of the Criminal Code of Ukraine, replace the word "subject" with "subjects", or separate part 3 of Art. 369-3 in a separate article to minimize confusion.

Due to the fact that the legal influence on the results of official sports competitions can be made by legal entities, it is proposed to add Art. 369-3 of the Criminal Code of Ukraine to the list of articles for which according to Art. 96-3 of the Criminal Code of Ukraine may apply measures of a criminal nature.
