

Nataliya M. Obushenko. Essence and significance of legislation systematization in Ukraine. The article highlights that the systematization of legislation is an essential measure on the path to Europe-an integration of our country, as well as that the systematization allows improving and streamlining legislation for ease of application and effective implementation in practice. The article reveals that the role of systematization of legislation is to create all the necessary conditions for its further development, to get rid of gaps and shortcomings in it and to ensure its internal unity. The article clarifies that the systematization of legislation creates opportunities to quickly find and correctly interpret all the necessary regulations, which provides a purposeful and effective legal education of society. Systematization of legislation becomes important in reviewing the sources of law, orientation in the system of legislation, for the adoption of new regulations by law enforcement agencies in coordination with all regulations, addressing obsolete acts and finding the most effective means of regulatory regulation of public relations. In the article, the systematization of legislation should be understood as a set of organizational and legal actions defined by the current legislation of Ukraine, which is carried out by authorized public authorities to bring existing regulations into a single internally coordinated system that improves overall efficiency. Systematization is a process of organizing individual elements, creating the right conditions for them to cooperate and interact with each other. Systematization is one of the main factors of purposeful and effective legal education (formation of legal awareness) and research in the field of student education.
